Unifi Cloud Key Gen2 Plus 1U Bracket

Thank you for purchasing the Bartallama3D Unifi Cloud Key Gen2 Plus 1U Bracket!

This bracket allows you to mount your Cloud Key in a standard server rack. The brackets supports mounting on either the left or right side of the rack and takes up only 1U (1.75inches) inches of vertical space in your rack. The bracket is designed to be tight around your cloud key but also has both the top and bottom open to allow for open air cooling of the device.

Key Features of the Apple Vision Battery Holder with Belt Clip

- 1U form factor
- Open top and bottom to allow for open air ventilation of your Cloud Key Gen2
- Left or right hand mounting supported
- Pair with PoE to your Cloud Key for ultimate cable organization

The bracket comes pre-assembled. Full product details, specifications, additional links, revision history, product photos, and demo video can be found on our website at <https://www.bartallama3d.design/products/7-unifi-cloudkey-gen2-1u>.

Dimensions & Compatibility

Installation

To install your Unifi Cloud Key inside the bracket, remove the screws on the back of the bracket and remove the back plate. Slide your Unifi Cloud key into the bracket, minding the orientation depending on which side of your server rack you plan to install it on. Reinstall the back plate and two screws into the bracket. Install into your server rack(screws not provided, they are unique depending on your server rack).
